

#### FOR INFORMATION / OPERATING INSTRUCTIONS

It is mandatory to use a face mask at Rauma shipyard from February 17, 2021 onwards. The mask can be momentarily removed if it is necessary due to work or safety factors. Special attention must be paid to occupational safety when using a mask!

A face mask must be used at all times during shared transport. This means that when there is more than one person in a car, people must use a face mask when travelling between accommodation and the shipyard.

There can be a maximum of three (3) persons at the same time at the shipyard's designated smoking areas, and the minimum safety distance is 2 metres.
